

WELCOME TO MOORE COUNTY TAX DEPARTMENT LAND RECORDS SECTION

The Land Records Section maintains ownership and mapping information for all real property records.

The "Listing Owner" is determined by recorded document either with the Register of Deeds Office or the Clerk of Courts Office. When a document is recorded in either office, the Land Records Section processes a change of ownership and the Tax Record is updated to reflect the new owner. For taxation purposes, ownership is determined as of January 1 each year.

Parcel mapping is also maintained using recorded information. When a deed is recorded, there is a description of the property in terms of, "Meets and Bounds" which describes the boundaries of the parcel being conveyed; or, there may be a survey recorded showing the boundaries of the parcel being conveyed.

From here, taxpayers may:
